

The header indicates what type of students are described in the table.

This is the Autumn Quarter cohort for the term indicated (1990). The cohort represents first-time, full-time entering freshmen that attend Autumn Quarter of the term indicated and were admitted in either Autumn Quarter or the preceding Summer Quarter.

This number represents the number of students from the original cohort that have received their degree by the end of their fourth year of school (by Summer Quarter 1994).

	Subtotal		4599	77.7%	3913	66.1%	3666	61.9%	3597	60.8%	3525	59.5%	3510	59.3%

This number represents the number of students from the original cohort that are enrolled at The Ohio State University (regional campuses included) in Autumn Quarter of 1992.

Example Calculations:  
 $2546/5920=41.5\%$   
 $1141/5920=19.3\%$   
 $2546+1141=3597$   
 $3597/5920=60.8\%$
